

***What The Tech?***  
**A BARI/TGH**  
**Summer Internship Program**

---

Part 5.1:  
The Home Stretch!

# ***Team Meeting***

# Team Meeting

- Icebreaker
- Group check-in
- Presentation Day

# Icebreaker

What is a work of art that has had a major impact on you?

Can be...

- A movie
  - A television show
  - A piece of music  
(song/album/artist)
  - A book
  - A painting
  - A video/computer game
  - Anything!
-

# Group Check-in

- How are we feeling about the projects?
- What have you completed so far?
- What do you need/want to work on?
  - Any questions for the group?

# Presentation Day [EDIT AS NEEDED]

Arrive Early

- Final prep

Presentations themselves:

- 3rd floor, room 310 (large conference room upstairs)
- 3:00 - 4:30 pm (we have the space from 2:15 to 4:45)
  - Invite who you want (formal email going out later)
  - Remote option available

# ***Any Questions?***

**Next:**

- 1. Work on Final Projects**
- 2. Rehearsals**

***Work on Final  
Projects***

***Reports/Data/Slides***

# Work Independently on Project

## Report

Background on the topic/the bill

- Why are you interested?
- How did it come about?
- Who is benefiting or might benefit?

A summary of data

- Key points, trends you noticed, etc.
- Graphics

Policy suggestions

- How could this be applied to Boston?
- If it is already being applied, what could be changed?

## Data

- As you go through the data, make charts/graphs that best fit your data (as we discussed yesterday).

Displaying the data in an accessible but informed way.

- Don't clutter a picture of a graph with too many labels or notes.
- When you're including text, pick one key sentence from the relevant paragraph(s) in the report. Anything else can go in your presenter notes!

## Slideshow (7 Minutes)

Slides that tell a story without relying too much on text

- “Show, don't tell.”
- Visuals and animations are your friend.
- Pro-tip: one slide should roughly equal one minute of presentation time

Mirror the layout of your report

- Background, data, policy recommendations/next steps.

# ***Rehearsals***

# Rehearsals

## Presenters!

- Everyone goes once
- Show what you've got so far
- When you're done, stay where you are for peer feedback:
  - Questions
  - Comments
  - Suggestions
- Then pick your spot for the presentation order!

## Audience!

- What went well?
- What needs to be worked on?
- What do you want more information on?
- Be a good critic!
  - Supportive but constructive

***Wrap-up***

***Thanks!***
